

**NEW**

# Bronc 4 Brand

**Fall Dormancy: 4**

## Hybrid Highlights

- Very good quality and high tonnage selection for low management systems
- Impressive overall agronomics that promote performance on highly variable soils
- Multi-race Aphanomyces resistance
- Very good winterhardiness allows good northern movement

Always follow grain marketing and IRM requirements and pesticide label directions. Agronomic characteristics and ratings may vary with growing conditions and environment. Ratings are approximate and should not be considered as absolute. Ratings on new products are based on limited data and may change as more data are collected. Extreme or variable conditions may adversely affect performance.
