

NEW

6061 | 110 RM

GDU to Mid-Silk 1320
 GDU to Black Layer 2750
 Pollination for Maturity Medium

Hybrid Highlights

- All about yield!
- Performance east to west with good southern movement for RM
- Best positioned in high yield environments
- Awesome Western Corn Belt hybrid with low greensnap risk and strong *Goss's wilt* tolerance
- Very responsive to fungicide and split nitrogen applications

Traits

- Trecepta® RIB
- GSS RIB

Agronomics

Staygreen	Average
Greensnap	Very Good
Stalks	Above Avg
Roots	Very Good
Early Vigor	Above Avg
Drought Tolerance	Average
Test Weight	Above Avg
Silage	N/A

Water Management

Full Irrigation	HR
Limited Irrigation	R
Rainfed	HR
Dryland (Stress)	NR

Key

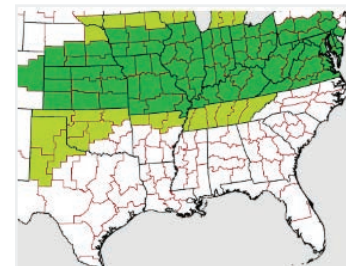

Disease Tolerance

N. Corn Leaf Blight	Above Avg
Gray Leaf Spot	Above Avg
Southern Leaf Blight	Very Good
Goss's Wilt	Very Good
Common Rust	Above Avg
Southern Rust	Average
Stalk Rot	Average
Ear Rot	N/A

Management Response

Added Management	Excellent
Fungicide Response	Excellent
Average Management	Very Good
Low Management	Average

Region Adaptability

Soil Placement

Course (Droughty)	Average
Medium	Excellent
Heavy (Well Drained)	Excellent
Heavy (Poorly Drained)	Very Good
Variable	Very Good

Rotation Management

Rotated Acres	HR
Continuous Corn	R
Continuous Corn w/ Fungicide	HR

INTEGRA® CORN

Plant Description

Plant Height	Medium
Ear Height	Med-High
Leaf Angle	Semi-Upright
Leaf Color	N/A
Leaf Width	N/A
Silk Color	N/A
Anther Color	N/A
Kernel Cap Color	N/A
Kernel Row	16-18
Cob Color	Red
Ear Length	Average
Ear Girth	Average
Ear Type	Semi-Determinate
Husk Cover	Medium

Population Management

Yield Environment	Population Range
0-100	NR
101-150	20000-28000
151-200	28000-32000
201-250	32000-35000
251-300	35000-42000

Herbicide Sensitivity

Growth Regulator	Acceptable
Sulfonylureas Inhibitors (ALS)	Acceptable
Pigment Inhibitors (HPPD)	Acceptable

Yield Environment Placement

Tough	Average
Variable	Very Good
High Yield	Excellent

Monsanto Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. This product has been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship®.

B.t. products may not yet be registered in all states. Check with your representative for the registration status in your state.

IMPORTANT IRM INFORMATION: RIB Complete® corn blend products do not require the planting of a structured refuge except in the Cotton-Growing Area where corn earworm is a significant pest. SmartStax® RIB Complete® corn blend is not allowed to be sold for planting in the Cotton-Growing Area. See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready technology contain genes that confer tolerance to glyphosate, an active ingredient in Roundup® brand agricultural herbicides. Agricultural herbicides containing glyphosate will kill crops that are not tolerant to glyphosate.

Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields.

RIB Complete®, Roundup Ready 2 Technology and Design®, Roundup Ready®, Roundup®, Trecepta®, and VT Double PRO® are trademarks of Bayer Group. Respect the Refuge and Corn Design® and Respect the Refuge® are registered trademarks of National Corn Growers Association. All other trademarks are the property of their respective owners.

Always follow grain marketing and IRM requirements and pesticide label directions. Agronomic characteristics and ratings may vary with growing conditions and environment. Ratings are approximate and should not be considered as absolute. Ratings on new products are based on limited data and may change as more data are collected. Extreme or variable conditions may adversely affect performance. WILBUR ELLIS logo, INTEGRA and INTEGRA logo are registered trademarks of Wilbur-Ellis Company LLC.

Insect Resistance Management
Planting Refuges, Preserving Technology

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, **including applicable refuge requirements for insect resistance management**, for the biotechnology traits expressed in the seed as set forth in the Monsanto Technology/Stewardship Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.
