GDU to Mid-Silk ..... 1315  
 Pollination for Maturity ..... Medium

### Hybrid Highlights

- True flex, dual-purpose type hybrid with consistency across yield environments
- Best performance on the bookends: Western Corn Belt and Eastern Corn Belt
- Low greensnap risk and strong *Goss's wilt* allows good western movement
- Exceptional stalk strength
- Good overall disease package
- Best performance at moderate populations

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields.

Important: Always read and follow label and bag tag instructions; only those labeled as tolerant to glufosinate may be sprayed with glufosinate ammonium based herbicides.
